在美國一度風行的一種看電影方式就是 drive-in theater。這種電影院在美國二次大戰後開始流行開來，因為那時候人們漸漸富裕，擁有車的人也越來越多，所以人們會開著車到這種露天的 drive-in theater，在自己的車上輕鬆的看著電影、吃東西、聊天。這種戲院在 1950 年代的美國各地區非常多，但後來由於家庭電視的普及以及電影院的素質提升，使得這種看電影方式漸漸沒落，目前全美國僅剩幾百家還在營業。雖然在這種露天的戲院看戲必須忍受不良的天氣狀況，但也仍是一種特別的體驗。

情境對話

萊絲莉在美容院和設計師討論要剪什麼髮型。

Going to a Hair Salon

Hairstylist: What can I do for you today?

Leslie: I would like to get a shampoo and a haircut, but I can't decide what kind of hairstyle I should get.

Hairstylist: Would you prefer short hair, or do you want it long enough for a ponytail?

Leslie: Well, I don't want it too short, like a crew cut; just short enough so that I don't have to worry about styling it every morning.

Hairstylist: I could layer your hair to give it more volume and shape. Or, better yet, you might consider a perm.

Leslie: I'll pass on the perm for now. I just dyed my hair a few weeks ago. I like the idea of getting my hair layered, so let's do that. Would it be possible to get a manicure at the same time?

Hairstylist: Sorry, but our manicurist is with another client now. Would you mind waiting about half an hour?

Leslie: No, I don't mind at all. That would be fine.

今天想要做什麼造型？

我想洗髮和剪髮，但是我無法決定要剪什麼髮型。

妳比較喜歡短髮，還是要留長到可以綁馬尾？

嗯，我不想剪得太短，像平頭那樣；只要短到我每天早上不用擔心怎麼整理就好了。

我可以打一點層次讓髮量看起來多一些而且有型。或者，另一個更好的方法是妳或許可考慮燙髮。

我現在不想燙髮，我幾個星期前才剛染髮。我覺得打層次這點子不錯，就那樣做吧。我可以同時做指甲美容嗎？

很抱歉，我們的美甲師正在幫另一個客人服務。妳介意等大概半小時左右嗎？

好，我可以等。沒問題。

Hairstyles

How do you describe someone's hair? You might say that it's long or short; straight or curly. But if you want to be more specific, there are several other ways to describe the style, shape and look of hair.

A woman has bangs if the hair at the front of the head is cut short, just above her eyebrows. If she has long hair, she could tie it in a ponytail, wear it in a bun, or braid it into pigtails. Some people prefer to part their hair in the center, while others prefer to part it on the side.

A man who has very short hair, about 3/4 of an inch long around the head, has a buzz cut, a style that is typical for army soldiers. The sixties rock group the Beatles became famous for their mop-top hairstyles, while in the seventies, the mohawk became a fashionable hairstyle among young people who liked punk music.
