# The US

Hello!

This is the first stop  
on my trip, the US!  
How much do you  
know about  
this country?

Let's play a game with the Smart Pen!  
Listen and point to the correct picture on the map.

## READ IT

The United States of America is also known as the USA, the US, or America. The capital is Washington, D.C. The country is in North America. Its neighbors are Canada and Mexico. There are mountains in the west of the country, a broad plain in the central area, and low mountains in the east. It is the third largest country in the world. It would take you five to six days to drive a car from the east coast to the west coast. Each star on the American flag represents a state. There are 50 states, and they are different in size and population. Many different kinds of people live in this country. Native Americans were the first people here. Other people then moved here from many different places. When people came to this country, they brought their cultures, languages, and foods.
