# 情境對話

萊絲莉在美容院和設計師討論要剪什麼髮型。

## Going to a Hair Salon

**Hairstylist:** What can I do for you today?

**Leslie:** I would like to get a shampoo and a haircut, but I can't decide what kind of hairstyle I should get.

**Hairstylist:** Would you prefer short hair, or do you want it long enough for a ponytail?

**Leslie:** Well, I don't want it too short, like a crew cut; just short enough so that I don't have to worry about styling it every morning.

**Hairstylist:** I could layer your hair to give it more volume and shape. Or, better yet, you might consider a perm.

**Leslie:** I'll pass on the perm for now. I just dyed my hair a few weeks ago. I like the idea of getting my hair layered, so let's do that. Would it be possible to get a manicure at the same time?

**Hairstylist:** Sorry, but our manicurist is with another client now. Would you mind waiting about half an hour?

**Leslie:** No, I don't mind at all. That would be fine.

今天想要做什麼造型？

我想洗髮和剪髮，但是我無法決定要剪什麼髮型。

妳比較喜歡短髮，還是要留長到可以綁馬尾？

嗯，我不想剪得太短，像平頭那樣；只要短到我每天早上不用擔心怎麼整理就好了。

我可以打一點層次讓髮量看起來多一些而且有型。或者，另一個更好的方法是妳或許可考慮燙髮。

我現在不想燙髮，我幾個星期前才剛染髮。我覺得打層次這點子不錯，就那樣做吧。我可以同時做指甲美容嗎？

很抱歉，我們的美甲師正在幫另一個客人服務。妳介意等大概半小時左右嗎？

好，我可以等。沒問題。

# Hairstyles

How do you describe someone's hair? You might say that it's long or short; straight or curly. But if you want to be more specific, there are several other ways to describe the style, shape and look of hair.

A woman has bangs if the hair at the front of the head is cut short, just above her eyebrows. If she has long hair, she could tie it in a ponytail, wear it in a bun, or braid it into pigtails. Some people prefer to part their hair in the center, while others prefer to part it on the side.

A man who has very short hair, about 3/4 of an inch long around the head, has a buzz cut, a style that is typical for army soldiers. The sixties rock group the Beatles became famous for their mop-top hairstyles, while in the seventies, the mohawk became a fashionable hairstyle among young people who liked punk music.
