Secret Pictures

Let's discover it!

What do you see in the glass?
Check the answer.

How do they look in the glass? Discuss with your friends and color.

☐ They look thick.

☐ They look straight.

☐ They look round.

☐ They look bent.

Let's do it!

What do you need?

The Disappearing Picture

markers

a blank piece of paper

a ziplock bag

a glass of water

What do you do?

STEP
1

Use **markers** to **draw** something on a **blank piece** of **paper**.

STEP
2

Put the **paper** into a **ziplock bag** and close the **bag**.

STEP
3

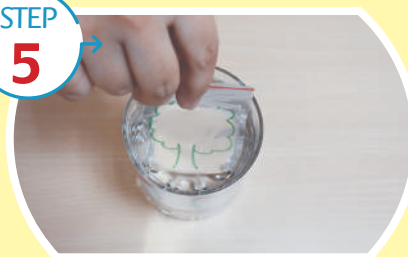

Draw something else on the **ziplock bag**.

STEP
4

Put the **ziplock bag** into a **glass** of **water**.

STEP
5

Observe the **paper** and the **ziplock bag**. Has anything disappeared?

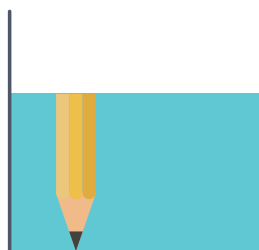

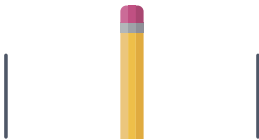

Let's try it!

- A** What are other examples of refraction? Discuss with your friends and circle them.

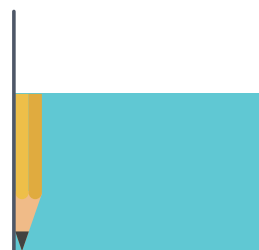

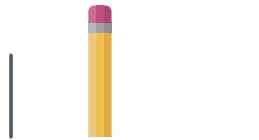

- B** Prepare a pencil and a glass of water. Put the pencil in different parts of the glass. Observe and match.
